ENGLAND BACK OF UNITED STATES

Premier Asquith Settles Tales of English Aid to Huerta by Vigorous Public Denial

WASHINGTON, Nov. 11.—President Wilson received from Huerta yesterday definite decision that he would not abdicate. In a long message to all diplomats in Mexico City, Huerta, through Minister of Foreign Relations Moheno, insists on the constitutionality of the present Mexican government, his right to declare null the election for president and through the new congress which the United States will not recognize, to order a new election. Coincident with this right the Mexican ruler asserts his authority to continue in office and to enforce his plans for pacification throughout Mexico.

Points to Old Promise

For the first time Huerta announces that he declared before the diplomatic representatives of the various powers that even if the new congress should declare him elected president he would not accept the office.

Huerta declares also that he called in conference all the candidates for the presidency and in a solemn ceremony in the presence of the entire Huerta cabinet, repeated the pledges, and before the diplomatic corps, and pledged each one of them to stand by him.

Call Aid of Latin States

Active co-operation of Central American nations in the Wilson administration's plans to bring peace to Mexico is expected here today, following a secretly called conference last night of their diplomatic representatives here with Secretary Bryan, in which he lifted the lid and gave them a full statement of what has been done by the United States in the Mexican question.

Bryan told the Central American diplomats that the peace of the entire western hemisphere ultimately might depend on the manner in which law and order is restored in Mexico, related the administration's various moves to that end and urged hearty co-operation.

Previous to this meeting Bryan held a conference with Senor Algara, charge of the Mexican embassy, and informed him that Huerta

START TO BAKE WEDDING CAKE

NEW YORK, Nov. 11.—The first "story" of Miss Jessie Wilson's wedding cake was being baked here today. A caterer on West 63rd street, given the job of baking the White house wedding cake, has taken an early start, as it will require a week to finish it.

Advance descriptions of the cake declared it will be two "stories" high. Over it will be a white urn containing white orchids. The first layer of the cake will be 22 inches across and four inches deep. The top "story" will be 16 inches by four. The icing will be plain.

The cake will be cut into 2,000 pieces and placed in boxes two inches deep and three inches long. The boxes will be tied with white ribbons.

STEADWELL AGAIN HEADS FEDERATION

La Crosse Man Chosen to Head International Purity Congress

SCORES "SPOONING PARLORS"

Missouri Professor Denounces Tendencies of Modern Life

Action of ministers establishing "spooning" parlors in churches; the countenancing of "spooning" by parents between their boys and girls, allowing kissing games at children's parties, and the habit of American women dressing to appeal to sensuality were scored by Prof. T. W. Shannon of Fredericktown, Mo., at the Purity congress in Minneapolis yesterday.

"Spooning" parlors are usually maintained with the idea of hastening marriages. They do hasten marriage, but usually open the way to the divorce court. Mothers advise their daughters on methods of capturing husbands, and usually condone "spooning" as a part of the process.

Trained by Postcards

"Ministers preach about it in their sermons and moving picture shows and postcards teach it. The young people of today get their social training from picture postcards and from serial stories and novels, all of which condone social indiscretion.

"It is a crime to tease little girls and boys about sweethearts. Mothers who do this are not only violating the sacredness of childhood, but they are encroaching on the rights of babyhood."

President Re-elected

B. F. Steadwell of La Crosse was re-elected president of the congress. Harry Olson of Chicago was elected second vice president; T. Albert Moore of Ontario, first vice president, and Dr. Emma Dirke of Denver third vice president. Other officers will be elected tomorrow.

Invitations for the 1915 congress were received from San Francisco and Los Angeles.

Rev. Francis Moody gave the official invitation to San Francisco on behalf of the Panama-Pacific exposition. Mrs. Alice Stebbins Wells, policewoman, extended the invitation to Los Angeles. The place will be decided upon Wednesday.

GLYNN AFTER PRIMARIES

NEW YORK, Nov. 11.—Tammany may yet be forced to accept a real direct primary law before the year is out. With the refusal of Governor Glynn to permit a final adjournment of the special session of the legislature and his announcement that he would insist upon the enactment of the direct primary bill, the Wigwam leaders today faced another fight over this legislation which was urged by former Governor Sulzer. Glynn ordered the legislature to reconvene December 8.

BAR MULHALL'S TOOL

LABOR LEADER WHOM N. A. M. LOBBYIST SAYS HE HIRED PUT OUT OF A. F. OF L. CONVENTION

SEATTLE, Wash., Nov. 11.—An echo of the Mulhall investigation was heard in the annual convention of the A. F. of L. today when Samuel Gompers drove from the floor Jacob Tazelaar, a delegate from Orange, N. J.

During Col. Martin Mulhall's testimony before the Overman committee in Washington he mentioned Tazelaar as one of several New Jersey union officials whom he had employed.

Tazelaar is a member of the Painters and Decorators' union and was elected a delegate to the present convention before the Mulhall investigation started. He made a spectacular effort to secure recognition and when he failed, he shouted: "All right, I will take my medicine."

BOARD TO ABANDON JUNKETS

Supervisor Barber Says They Get No Results and Only Run Up Expense for County

Maintaining that the annual junkets to the poor farm are impositions upon the authorities there and that no good is accomplished by the "outings" Supervisor William E. Barber this morning led the opposition to the trip this year. Those opposing were victorious, the vote standing 20 to 15 against the trip.

At this afternoon's session, however the county dads decided that the annual trip to West Salem for inspection of the asylum be made as usual.

Almost the entire morning session was spent in hearing the annual report of the various departments and listening to the recommendations of officials for the coming year.

The report of the soldiers' relief commission showed a balance of $219 in the fund and Secretary Edward Cronon requested of the board that the amount appropriated for the pensions next year be cut to $2,100. Twenty-two hundred dollars was appropriated last year.

The report of the superintendents of poor showed the expenditures at the poor farm during the fiscal year just ended to be $4,791.60. The receipts from the farm amounted to $726.31. Fifteen hundred dollars was the sum estimated to be needed for the coming year.

According to the report of J. E. Keizer, assessor of incomes, the total assessed value of real and personal property in the county shows an increase of $1,896,060, over 1912; an increase of $734,771 in the city of La Crosse and $1,161,289 in all the other districts combined.

The total assessed value is, personal property, $7,770,534; real estate, $25,658,372.

He has estimated the true value of property in the county for the year 1913 as follows:

Personal property, $10,512,191; real estate, $30,894,216; total, $41,406,407.

LEAP FOR LIFE ENDS IN DEATH

Fred Schmeckpepper Who Jumped Off Bridge to Escape Train Dies of Injuries

As the result of his jump off the high Northwestern railroad bridge into the marshes about three weeks ago, Fred Schmeckpepper, age 44, 2007 South Twelfth street, died yesterday morning at a local hospital.

Schmeckpepper is a laborer. He was crossing the bridge on his return from a walking trip late at night. When in the center of the bridge, he heard the whistle of a passenger engine, and could not get off in time to avoid being struck.

As the train came almost upon him, he jumped, landing on soggy ground, breaking the right leg and sustaining internal injuries. He was not found until late the next morning.

Schmeckpepper has been hovering between life and death in the hospital since he was injured, although physicians held out hope for his recovery until yesterday morning, when he became unconscious and maniacal, dying a short time later.

Funeral services will be held from the residence at 2 o'clock Thursday afternoon, and ot 2:30 from the German Lutheran church. Rev. Julius T. Gamm, pastor of the church, will officiate.

HUNTS BERI-BERI CURE

CHICAGO, Nov. 11.—Dr. Wilfred T. Grenfell, Labrador missionary, who is to be the best man at the wedding at the white house of Miss Jessie Wilson and Francis Sayre, announced at the National Congress of Surgeons here today that he is experimenting with a possible cure for "Beri-beri," a form of paralysis. The jackets of potatoes, Dr. Grenfell asserted, form the principal ingredient of the "cure" with which he is experimenting.

$893,000 FOREIGN FUNDS.

DECATUR, Ill., Nov. 11.—Of the $1,157,000 appropriated by the foreign mission board of the Methodist Episcopal church today $893,000 is to be used in the foregn field.

AMERICAN IS KILLED

MELUN, France, Nov. 11.—E. A. Magee, or Maggi, an American, is believed to have perished in the railroad wreck here a week ago, in which sixteen were killed.

FIRE MAID WHO SAW TROUSSEAU

WASHINGTON, Nov. 11.—Because her curiosity overcame her good judgment and she "peeped" at Miss Wilson's wedding clothes, contrary to Mrs. Wilson's strict orders, a maid employed at the White house was reported to have been dismissed. There is no sign denying admission to the sewing room, but it is closed to all trespassers and its contents are guarded with the care of a state secret.

Every hostess wishes to be free to accept a possible invitation to see Miss Jessie Wilson, the president's daughter, before her marriage, and Washington was socially dead today. It will remain in a comatose condition until Nov. 25, when Miss Wilson weds Francis Bowes Sayre.

FORM PLANS FOR REFORMING G.O.P.

Will Call Special National Convention to Rehabilitate the Party

MAY BE HELD IN THE SPRING

National Committee Meets in Washington Today to Settle on Arrangements

WASHINGTON, Nov. 11.—Definite plans for rehabilitation of the republican party along the lines of the new "liberal republicanism" were formulated by the sub-committee of the republican national committee. Its members prepared proposals for submission to the national committee at its meeting here. The decision arrived at was that the national committee itself has not power to change the methods of choosing delegates and the basis of representation at national conventions, but does have authority to call a special national convention for that purpose.

Whether the sub-committee should recommend that a special convention be held this winter or next spring, was the principal question in dispute today. When the committee recessed for luncheon it was said that no vote on any of the questions had been taken. It was apparent, however, that the committee would vote that the national committee had authority to call a convention.

FREE I. W. W. LEADERS.

TRENTON, N. J., Nov. 11.—The conviction of "Big Bill" Haywood, Carlo Tresco and Adolph Lessig, the I. W. W. agitators, was set aside by the supreme court today in an opinion delivered by Justice Bergen. Haywood, Lessig and Tresco were the three whose actions were said to have incited the silk strikers of Paterson to riot during the recent strike.

THREE ARE KILLED

INDIANAPOLIS, Ind., Nov. 11.—Three men were killed and a building of the Inland Steel company wrecked today, when a pipe used for the transmission of steam exploded.

GOV. M'GOVERN'S PROCLAMATION

MADISON, Wis., Nov. 11.—(Special.)—Governor McGovern's proclamation designates Nov. 27 as Thanksgiving day.

"As the year 1913 approaches its close," says the proclamation, "it is manifest that no state in the union has greater reason for profound thankfulness than has Wisconsin. Sound health, profitable employment and abundant success have attended our people throughout the year. There has been no catastrophe of flood or storm. Instead, the good spirits of sunshine and rain have hovered over our land, covering the earth with natural beauty and insuring to the farmer abundant crops. The arteries of trade are pulsing with a full flow of the rich fruits of the soil and the valuable products of our shops, factories and hills. Truly, our cup of gladness and contentment is running over.

"In recognition of the goodness of Providence, therefore, in conformity with established custom and in accordance with the proclamation of the president of the United States, I, Francis E. McGovern, governor of the state of Wisconsin, do hereby designate and appoint Thursday, the twenty-seventh day of November, 1913, as Thanksgiving day, and I recommend that our people meet on that day in their accustomed places of worship and offer thanksgiving and praise to God who has so carefully watched over us through the year and made our labors fruitful."

BEILIS COWERS IN FEAR OF VIOLENCE

Intense Excitement in Kieff Following Acquittal of Jewish Worker May Bring Pogrom

MAY COME TO U. S. NOW HE'S FREE

Plans to Emigrate as Soon as He Is Able to Scrape Together the Money

KIEFF, Russia, Nov. 11.—Guarded by soldiers and police, Mendel Beilis, the Jewish laborer acquitted of the ritual murder of the Christian boy, Andrew Yushinsky, remained hidden in his little home today, in fear of assassination. He and his family, to whom he has been restored after almost three years in prison, expect to leave the country as soon as they can get funds.

To Come to U. S.

When the jury, after half an hour's deliberation yesterday, declared Beilis guiltless, the Jew, with sobs of joy, went home, guarded by five soldiers with drawn sabres. When a huge and hostile crowd surrounded his home, despite the orders of the soldiers and police to disperse them, Beilis, frightened by the black looks and angry mutterings, feared for his life and begged to be taken back to prison. In the early dawn Beilis went home again, but even at that unusual hour he did not entirely escape the crowds. Many agitators remained in the streets all night. A heavy police guard accompanied the Jew to his home and remained at the house. Police protection will be maintained as long as the agitation continues, according to the authorities, but it was said today by M. Grousenberg, his chief attorney, that Beilis and his family will lose no time in emigrating from Russia. Presumably they will go to the United States.

Excited throngs still filled the streets today and the Jews are in terror of violence, perhaps a pogrom. Scores are preparing to leave the country. Heavy cossack and rural guards patrol the Pale, and all thoroughfares are guarded by soldiers and police.

ROME, Nov. 11.—Pope Pius today appointed Father Edward Kotowsky of Grand Rapids, Mich., as auxiliary bishop of Milwaukee.

LEAVES BIG SUMS FOR CHARITY USE

Will of Edward Morris Disposes of $20,000 to Institutions Needing Funds

CHICAGO, Nov. 11.—The will of Edward M. Morris, millionaire head of Morris & Co., meat packers, who died November 3, leaving an estate variously estimated at from $20,000,000 to $30,000,000 was filed today.

Mrs. Morris, the widow, receives outright 26 2-3 per cent of the entire estate, estimated at from $5,000,000 to $6,000,000. In addition to this amount 13 1-3 per cent is placed in trust for her. The other sixty per cent of the estate, exclusive of specific bequests, will be divided equally and held in trust for the four children. Bequests aggregating $260,000 are made to the following charities:

In addition to these bequests, Morris left $50,000 to his wife to be distributed for charity as she sees fit, and $5,000 for the Morris domestic servants.

RECOGNIZE SANTA LETTERS.

WASHINGTON, Nov. 11.—Santa Claus will visit thousands of cheerless homes this Yuletide because Postmaster General Burleson, following the plan of the last administration, decided that "Santa Claus" letters can be turned over by postmasters to responsible charitable organizations or individuals to answer.

GIVEN SENTENCE UNDER NEW LAW

Wife Deserter Must Work at Trade but All Money Is Turned Over to His Wife

FIRST CASE OF KIND IN COUNTY

Man's Wages to Be Given to Sheriff and by Him Placed in Hands of Dependents

William Cherrier brought back from North Dakota to answer to a charge of wife abandonment, is the first man to be sentenced in this county under the new law which makes it possible to compel jail prisoners to work and turn their earnings over to their dependents.

In Cherrier's case the money will aid his wife and six-months-old baby.

Cherrier, it is alleged, deserted his wife last August and one day after she bore him a son. "Another woman," said to be a resident of Chippewa Falls, entered the case.

The law under which Cherrier was sentenced was championed by Sen. H. A. Huber of Dunn county, who spoke before the charities' convention here.

Cherrier will be permitted to live at home but will have nothing to do with his earnings. They will be turned over to the sheriff who, in turn, places them in the hands of his wife.

An attempted escape by Cherrier would be a felony and punishable by a fine and imprisonment at Waupun.

Cherrier is released on his own recognizance.

HELD FOR BIGAMY

MINNEAPOLIS, Minn., Nov. 11.—Arthur B. Carter, son-in-law of ex-Congressman Frank Nye, the police say, confessed today that he is a bigamist. Carter married Miss Stella Nye in 1897.

In January of this year, Carter met Miss Selma L. Bondeson, 22. When he proposed, the girl accused him of already having a wife. He denied the accusation. Mrs. Carter No. 2 says, declaring he had secured a divorce. He exhibited divorce papers, Miss Bondeson says, to prove his statement but since she has learned that the papers were forged, she says.

Carter is said to have divided his time between the two women.

MAY ASK FUNDS

PHILADELPHIA, Pa., Nov. 11.—An appeal may be made soon to wealthy Jews in Philadelphia and New York for funds to bring Mendel Beilis, the Russian Jew, acquitted of the ritual murder charge, to this city. Mrs. Veivil Rubin, sister-in-law of Beilis, sent a cable to Mrs. Beilis today, urging her to come here at once and offering to raise passage money.

INVITE T. R. TO JAPAN

TOKIO, Nov. 11.—President Lowell of Harvard and Col. Theodore Roosevelt will be asked by the Harvard club of Japan to come here and make addresses. A resolution to that effect was adopted today at the annual meeting and dinner of the club.

WIFE HIRES SPOUSE

JANESVILLE, Wis., Nov. 11.—Sentenced to one year imprisonment under the labor commitment law, on complaint of his wife, Edward Arneson, tailor, was hired by his wife to work out the term.

CHINA IS NEAR REVOLT

WHOLESALE EXECUTIONS AND GENERAL HIGHHANDEDNESS OF YUAN ANGER THE SOUTH

PEKIN, Nov. 11.—All indications for several days past have favored another revolution in southern China in the very near future.

President Yuan Shi Kai's expulsion from parliament recently of 300 odd deputies, all members of the Kwo Ming tong party, discovery of the fact that he plans restoring to office many of the Manchu officials who served the imperial government and the wholesale arrests and executions of his political opponents have aroused violent anger throughout the southern provinces.

The Kwo Ming tongs were followers of Dr. Sun Yat Sen, father of the revolution which overthrow the Manchus, and their charge is that Yuan is trying to establish another despotism with himself as depot.

STORM STARVING CLEVELAND

Communication Is Cut Off and City's Food Supply Diminishes as Snow Piles Up

PORT HURON, Mich., Nov. 11.—The large lake steamer found floating bottom up in Lake Huron, eight miles north of here, was early this afternoon identified by several local vesselmen as the E. A. S. Clark, a 450 foot steel freighter, owned by Captain John Mitchell of Cleveland. The identification is not positive. The Clark carried a crew of 20 men and was sailed by Captain John Low.

CALUMET, Mich., Nov. 11.—The big freighter which for two days has been pounding on the rocks at Gull Rock lighthouse, Manitou island, was this afternoon identified as the L. C. Waldo of Detroit. The tug Hebbard, after a desperate battle with the high seas succeeded in reaching the wreck and rescuing a part of the crew.

PORT HURON, Mich., Nov. 11.—That two big lake freighters are resting on the bottom of Lake Huron, eight miles north of this port, and that all members of the crews of both vessels have perished was the belief expressed by the captain of the tug Sarnia City, which returned here this morning after an investigation of the wreck. The captain believes that the two vessels met in a collision during the fiercest storm ever experienced in the great lake region, one, a hundred footer, is resting on top of a smaller boat with part of her bow protruding from the water. The name of the vessels are unknown.

The peculiar position of the boat that is visible strengthened his belief, the captain said. The ship is resting bottom up with her stern entirely submerged but with her bow protruding about twenty feet above the water.

Lake sailors today estimated that the crew of the larger freighter probably totalled at least twenty-seven men. The size of the under-vessel being unknown, it was impossible to estimate the number aboard her. Two tugs from the Reid wrecking company will go to the scene of the disaster again this afternoon in an attempt to learn the identity of the wrecks.

Lightship Lost

BUFFALO, N. Y., Nov. 11.—United States lightship No. 82, stacrew of twenty-two men refuse to leave the steamer. Tugs are standing by ready to take them off.

Cleveland Starving

CLEVELAND, Ohio, Nov. 11.—(By Direct Wire.)—Although the wind had abated somewhat at 10 o'clock this morning, conditions are little better here today. Snow is still falling and local traffic of all kinds is still tied up. Railroads have no wires and their trains are barely crawling in and out of the city. Some roads have no trains at all.

The food supply is nearly exhausted in the residence section of the city, the wholesale grocers being unable to make deliveries. The milk supply has become so low that only milk for babies is being dispensed today.

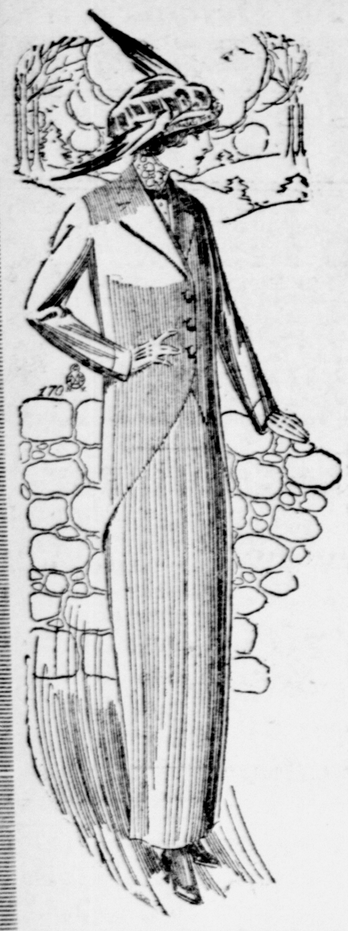

The snow in some of the downtown streets is banked six feet high. Only a few local car lines are operating and those very irregular. Business is paralyzed. The damage is close to $1,000,000.

Scores Perish

DETROIT, Mich., Nov. 11.—With fresh details of the havoc wrought on the great lakes by the worst November storm on record slowly coming in over crippled telegraph and tioned in Lake Erie off Point Abino, Canada, it is feared, has gone down in the seventy mile gale that swept the lake yesterday.

THE TRIBUNE'S Daily Short Story

AN OLD MAID'S DUTY

By GRACE KERRIGAN

Copyright, 1913, by the McClure Newspaper Syndicate.

Stephen Olney and Mary Williams had been married a year, and all had gone well. It hadn't been what might be called a quick-lunch or a rapid transit match.

Stephen was a steady young man of three and twenty, and Mary was three years younger. They had courted a year and studied each other. Stephen hadn't written an average of three love letters a day, and it hadn't gone forth that Mary would commit suicide if anything occurred to prevent the marriage. There was romance, but there was also common sense.

There had been no disagreement for the year. On only one occasion was there a little cloud. That was when a lame man passed the cottage as husband and wife sat on the steps, and the wife remarked: "I wonder what hurt his right leg?"

"The limp is in the left leg, dear," was the reply.

"It in the right!"

"It's in the left!"

"Stephen Olney, do you think I'm blind!"

"Mary Olney, do you think I am!"

And just at that critical moment, as if sent by Providence, Mr Shoemaker came along and said:

"That's Mr. Savage, who hurt his back a year ago and will never get over it!"

"So, then, it wasn't a limp in the right leg?"

"Nor a limp in the left leg."

And what was there to do but laugh and make up, but at the same time heed the moral of it—that almost every quarrel in married life starts at a trifle.

One day there was an arrival. The arrival was a woman. She came stalking up to the Olney house through six inches of snow. Her name was Agatha Saunders. She was a cousin of Mrs. Olney's and lived fifty miles away, and she was an old maid. She had not been heard from, by letter or otherwise, for three years. She had not been invited to arrive.

The visitor had to identify herself, and when she had done so she said: "I suspect you are surprised to see me, but I felt it my duty to come."

"Yes, but no one is ill," was the reply.

"It's worse than illness, according to what I hear."

"Why, what is it?"

"It's that man you married!"

"But Stephen is all right."

"You needn't tell me that, Mary! No husband is all right. Every one of them is all wrong. I have come to give you my aid and sympathy and help you bring about a change. I meant to have come six months ago, when I heard how Stephen was using you, but sickness and other things prevented. I am here now, however, and I trust it is not too late."

"But Stephen has used me as only a loving husband should."

"Don't seek to blind my eyes, for I've heard all about it. There's six inches of snow all around your house, and the well and the woodpile are outdoors and you must wade to them!"

"But is Stephen to blame?"

"Is he home here using the snow shovel? If so I don't see him. He is utterly indifferent whether you wade or not. Wet feet lead to pneumonia and death. Does Stephen care?"

"But when he gets home—"

"Oh, that is a different thing! I have heard that when he enters the house he throws his hat on the floor or any old where and expects you to pick it up."

"He may sometimes."

"He orders you to get his slippers."

"He asks me to."

"Don't split hairs, Mary. Stephen goes out evenings and leaves you alone."

"He goes to his lodge now and then."

"His lodge! Why, Mary, you aer a greater simpleton than I thought you! Lodge! Lodge! Out of every one hundred cases of divorce ninety-eight come about through the husband going to his lodge, or pretending that he does. But we'll say no more about it just now. It was my duty to come, and here I am. I shall try to bring about a great change in Stephen. If he is selfish and obstinate about it, as most husbands are, I shall stand by you in getting a divorce."

"But you were never married, and how do you know what a husband ought to be!" demanded the young wife.

"My dear cousin, I have been engaged three times, and almost engaged four other times, and I think I know something about mankind. We will renew this conversation at another time."

If Miss Agatha Saunders hadn't been a blood relative she would have been invited or commanded to make tracks in that six inches of snow—fresh tracks—tracks leading back to the railroad depot. You can't take a relative by the neck, however, unless the offense is more serious. It was certain that the old maid had come to meddle and make trouble, but the young wife resolved not to say a word to her husband until forced to. Two days had passed when the visitor said:

"Cousin Mary, Stephen took his seat at the breakfast table this morning before you did. In leaving the house this morning he simply kissed you on the ear."

"We neither of us go much on kissing."

"When you asked if you should have a boiled dinner he merely grunted in reply. He didn't wave his hand at you when he went out of the gate."

"Because I had gone back into the kitchen."

"Mary Olney, you see the handwriting on the wall as clearly as I do, but you are bound not to admit it. I tell you that Stephen has become indifferent to you, and when a husband becomes indifferent a separation is not far off!"

Two or three days later it was: "Mary, when Stephen arrives home at 6 o'clock he doesn't kiss you."

"There are times when he is in a hurry to shovel snow away."

"You announced in his hearing last evening that you had a sore throat. A sore throat may be the precursor of tonsilitis or diphtheria, and he knows it, and yet he made no reply to you or went for a doctor."

"But he knew that I had a gargle in the house."

"Oh, you blind woman; but you have got an awakening coming to you!"

Again an interval, and then the old maid showed much excitement as she said: "Last night Stephen started out to attend his lodge!"

"Yes?"

"I started out at the same time for a walk. I followed him."

"You—you did!"

"And he didn't go to no lodge!"

"But he must have."

"He went into a building where it looks like a cobbler shop!"

"But I believe the lodge room is over that."

"Mary, you are wilfully blind! I even asked a man what they did up there, and he said they rode the goat. That's where your honest Stephen was—riding a goat around and holding high revel."

Mrs. Olney had been hearing about "riding the goat" for years and years, and she made no reply. She meant to relate the joke to her husband that night, but there was something else to the fore. When Stephen came up to dinner he was drawing behind him a hand sled of liberal build, which was left at the door.

Dinner passed off pleasantly, and after it was concluded he handed Cousin Agatha a railroad ticket with the remark:

"To get you back home!"

"But—but—"

"Please pack your suitcase. The sled awaits you."

She went to her room and packed, and Stephen preceded her to the door and the sled.

"Get aboard, please," he said.

She seated herself on the sled in a dazed way, and he drew her to the gate. From that point to the depot was a quarter of a mile, and all down hill.

"Good-bye!" said Stephen as he gave the sled a push.

Next day the sled was found in a vacant lot. It had climbed two fences and scraped three trees to get there. There were evidences that a human being had been the plaything of Fate but there were no evidences of Cousin Agatha. She might have taken the 8:30 train.

IF BACK HURTS BEGIN ON SALTS

Flush your Kidneys occasionally if you eat meat regularly

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications. Agent Chas. Beyschlag, Druggist, 503 Main St.

He Got His Tip.

An old fisherman used to bring him a splendid salmon the first of every month, and he always gave the fisherman a tip. One morning he was very busy, and when the old man brought the fish he thanked him hurriedly and, forgetting his tip, bent over the desk again. The old man hesitated a moment, then cleared his throat and said, "Sir, would ye be so kind as to put it in writin' that ye didn't give me no tip this time, or my wife 'll think I've went and spent it on rum."

He Pulled Down the Flag.

Daddy's Bedtime Story — How Jamie Won the Snow Battle.

WHEN the cold days came Jack and Evelyn began to look eagerly out of the window every night to see if there was promise of a snowstorm before morning.

"Have you ever made a snow fort?" asked daddy. "The fort is made by piling up the snow to make walls.

"Jamie was a very small boy, so I suppose he did not know much about playing with snowballs. His cousin Gerald and some boy friends had built a splendid big snow fort and placed a nice flag on a pole in the middle of the fort.

"The boys had divided. One half of them were to stay inside the fort, and the other half were to be outside. The ones outside were to try to get in the fort and take down the flag on the pole. Whoever could pull down the flag was to be the winner of the game and leader of the boys in the fort.

"Because he was a small boy the party in the fort did not want Jamie with them, so he was left to the party outside trying to take it.

"This party, with snowballs in hand, marched up to the fort, but they were soon driven back by the snowballs of the boys behind the wall.

"Jamie threw his ball with the rest, but when he found that it hit the leader of his own party in the neck instead of going over the wall he prudently made his way to the back of the fort.

"'Hello, Spot!' Jamie said as he caught sight of Spot, his dog, busily scratching away at the snow wall. Spot thought he smelled a bone inside and was trying to get it. He had scratched quite a good sized hole.

"'I'm goin' in, too,' Jamie said to himself as he saw Spot squeeze through the hole.

"The boys in the fort were so busy keeping out the boys in front who were climbing up the front wall that they did not notice little four-year-old Jamie wriggle through the hole.

"Though small, Jamie knew what to do, and, stealing up to the flagpole, he pulled the string that brought it down.

"The boys outside saw the flag drop and gave a yell. 'The flag is down!' they cried.

"The boys inside turned to look at the flag, and while they were not watching the enemy was over the wall and had won the fort.

"Every one laughed when they saw who had pulled down the flag, but for the next battle Jamie was, of course, the general and had a fine time ordering the other boys around."

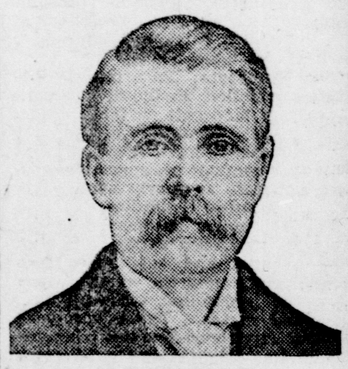

Eats Freely But Has No Dyspepsia

A Little Pepsin in a Mild Laxative Promptly Corrected a Bad Indigestion

Fortunate is the one who can eat "anything" without suffering the tortures of dyspepsia, but as few are so fortunate, care should be taken in the matter of diet. Eating slowly, masticating the food thoroughly and taking a short walk after the heavy meal of the day will do much towards assisting digestion. Any grown-up person ought to know the peculiar foods that do not agree, and these should be avoided.

When these common sense aids fail the next thing to do is to take a mild digestive tonic with laxative properties, and there is none better than Dr. Caldwell's Syrup Pepsin. It contains the greatest of all aids to digestion, good pepsin. It has other ingredients that act mildly on the bowels, which together form a combination for the relief of dyspepsia or indigestion that is unsurpassed.

Its action is to tone and strengthen the stomach and bowel muscles so that they can again do their work naturally without outside aid, and when that happy moment comes all medicine can be dispensed with. It is the best remedy obtainable for any disorder of the stomach, liver and bowels, for dyspepsia, constipation, biliousness, headaches, drowsiness after eating, gas on the stomach, etc. Thousands of users will testify to this, among them Mr. J. W. Goucher, Stites, Idaho, who for several years had all the worst symptoms of chronic dyspepsia. Since taking Dr. Caldwell's Syrup Pepsin these have all gone, and although Mr. Goucher says he is 64, he does not look more than 40.

J. W. GOUCHER

Syrup Pepsin is sure in its results, and a vast improvement over chewing or swallowing tablets and mints, or taking cathartics, salts, etc., all of which are harsh and nauseous and at best do but temporary good. You can obtain Syrup Pepsin at any drug store for fifty cents or one dollar a bottle. Results are always guaranteed or money will be refunded.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 419 Washington St., Monticello, Ill. A postal card with your name and address on it will do.

OUR ELECTIONS FREE FROM TAINT

We quote the following from a recent issue of the Winona Independent:

"Wherever elections are being held this fall, there is more complaint than ever of the heavy burden placed on candidates. In the times when corporations were permitted to contribute freely to party treasuries, funds were more abundant. A candidate who was open to influence from the right quarters would find funds appearing as mysteriously as the ravens brought food to the prophet of old.

"Public sentiment and election laws have partly dried up this source of support. Today, unless a man has subterranean connections with parties seeking favors, he must largely draw on his own resources.

"One of the greatest abuses in politics is the custom of hiring paid workers. A gang of Hessians around every polling place claim to sway the support of doubtful voters. They demand payment for rendering this assistance, which is practically the purchase of their influence. The man who is poor but honest and square stands but a bad chance at the polls until this abuse shall be stopped."

Come over into Wisconsin, just across the bridge and you will find a state that has solved these difficulties and banished the consequent evils. We have not only limited and defined and ordered published all contributions, but have so curtailed the candidate's expenses as to give the poor man a chance with the rich man. We have banished the paid worker, the "Hessian;" we have banished liquor as a campaign influence. Appeal to the intelligence is now the only resource of the candidate in Wisconsin. The pen and the stump are instruments of politics.

CITY SHOULD HAVE BAND CONCERTS

We have discussed what Mr. Goetzman told the grocers about good roads. Equally true was his observation that La Crosse needs more good music.

However, it must be remembered that if we are to have good music we must support it. Had Mr. Goetzman been acquainted with the lamentable failure, financially, of the former La Crosse Choral union, of grand opera in La Crosse, and other similar undertakings, he might not have been so optimistic as to suggest the bringing here of the Minneapolis Symphony orchestra "for a season." Excepting for the "one night stand" we do not seem to be up to it although we are all hoping for Leigh Toland's latest venture a better success.

Love of music is not entirely hereditary, it may be cultivated. American cities have not reached the stage in which the municipal theater seems likely to flourish, but in one way municipalities have successfully encouraged music. We refer to band concerts.

Generous citizens have given La Crosse parks the aggregate cost of which is upward of $200,000 and the city has spent money in improvements and maintenance. Yet it is a regrettable fact that excepting for the efforts of that public spirited citizen, F. A. Cotton, and his little band of state normal musicians, we did not have a concert in the public parks during the summer of 1911. Quibbling over price with the musicians is said to have been the stumbling block, but we should not have stumbled on so small an obstacle. Nothing has a better influence upon a community than good music in public places.

Many people believe a central bank would be a very good thing if it could be located about 25 miles from where they live.

Ideal

"There's a queer case across the street," says the native. "Old Jim Fergus was struck by lightning last year, and he can't speak a word now, although he used to be able to make the whoopingest stump speech you ever heard."

"Why don't you folks boom him for secretary of state?" asked the visitor.—Judge.

Oh, You Chicken

Josephus Daniels is a great man and a wise man. He now reposes in the swirl chair which gives him the title of secretary of the navy. But his tastes are simple, not to say bland and bucolic.

The first thing he did when he settled in Washington was to buy ninety chickens. And each morning, as the sun sucked up the dew, and the fragrant breeesz brought him the offerings of violets and roses, he set sail for the henhouse. At this writing his record has been a find of nineteen eggs in one morning.

"However," he says, "when these chickens become accustomed to the depressing Washington climate their batting average will go up."—Popular Magazine.

A Boy's Dog

No, siree, that dog won't bite,
Not a bit of danger!
What's his breed? Shore, I don't know;
Jest a "boy's dog," stranger.

No St. Bernard—yet last year,
Time the snow was deepest,
Dragged a little shaver home
Where the hill was steepest.

Ain't a bulldog, but you bet
'Twouldn't do to scoff him.
Fastened on a tramp one time—
Couldn't pry him off him.

Not a pointer—jest the same,
When it is all over.
Ain't a better critter 'round
Startin' up the plover.

Sell him? Say, there ain't his price,
Not in all the nation!
Jest a "boy's dog;" that's his breed—
Finest in creation!

The Ultimate Object

"Don't you think, dear," began Comfy, "that our next door neighbors, the Scrubbs, are putting on a great deal too much style, considering the fact that they never know from day to day where the next meal is coming from?"

"Well," replied Mrs. Comfy, "you see, the more style they put on the more likely they are to be invited out to dinner."

Stealing a March on Nature

A Baltimore woman who had never had a garden was unexpectedly afforded the opportunity to possess one wherein she could do just as she pleased. It was, therefore, with careful study that she perused the seed catalogues. One day her husband came home and found her deep in its illustrated pages. She had a long list of seeds written on a sheet of paper, which, she announced, contained the seeds which she wished her husband to procure for her.

"You want these flowers to bloom this summer, don't you?" asked her husband, after looking at the list.

"Why, yes."

"Well, then, it may interest you to learn that those you have put down here don't bloom until the second summer."

"Oh, that's all right," said the wife. "I am making up my list from a last year's catalogue."—Lippincott's.

"I was up in time, but I couldn't come no sooner."

"Why couldn't you come any sooner, if you were up in time?"

"I—I—I couldn't find my pants."

"After the Coon"

A Presbyterian minister by the name of Haynes was once traveling through the wilds of West Virginia. On Sunday evening late he called a halt at a log cabin by the road and gave a halloo when a woman came to the door.

Haynes said: "Where is your husband?"

"He went coon hunting. He killed two whoopin' big ones last Sunday."

"Doesn't your husband fear the Lord?"

"Oh, yes, he always takes his gun with him."

"Are there any Presbyterians in this country?"

"I don't know whether he has killed 'any' Presbyterian or not. You can go out to the shed and look at the hides and see."—National Monthly.

Getting Ready for Isaac

Here is a story told by Rev. Dr. Hastings of Aberdeen, and reproduced in the British Weekly.

When in Cambridge, Bishop Ryle, the present dean of Westminster, undertook to handle in Dr. Hastings' Dictionary of the Bible some of the proper names in Genesis. One of them was a little late, and Dr. Ryle sent his editor a wire when it was ready.

Now, it was not an unusual thing in those days for some college friend to arrive with little or no notice at the manse, and be greeted by his Christian name.

On the day on which Dr. Ryle's wire was received I was from home. Returning at night, I found active preparations for a coming guest, and on inquiry was shown the wire.

It read, "Isaac will arrive in a few hours."

Meanwhile he was going home. Going, much against the advice of the Norfolk doctor, who warned him that he was not yet well or strong, that the out-of-door life in the mild Virginia climate should be continued perhaps for two years more, before he went back to the agitation and effort of a Bonapartist agent in France. But he could not wait; he must see his old home, his mother, his father, and all the unforgotten faces. He longed to watch the black lashes curl upward from the blue of Alixe's eyes. He longed to hear her clear voice with its boyish note of courage. It would put new life into him, that voice. It was seven years now and more since he had left them all at a day's notice to go to Pietro in Italy—to a living death of five years, to many undreamed of happenings. The fever was on him and he must go home.

There was to be a celebration for the new and very fashionable cavalry troop of which Francois was the unofficial backbone and author. In the great grassy paddock at Bayly's Folly the proud mother of eighteen-year-old Caperton Bayly—first lieutenant, and the most finished horseman in the Virginia county—had invited the gentry from miles about to feast with her and to watch her son and his friends show how the Chevalier Beaupre had made them into soldiers. They came in shoals, driving from far off over bad roads in big lurching chariots, or riding in gay companies, mostly of older men and girls and young boys, because all of the gilded youth were in the ranks that day.

The day was perfect; a day remembered in that part of Virginia among the great families who came to see their boys ride. Yeardleys and Carters and Littletons and Letchers and Bowmans were there; and Joyneses and Harrisons and Bowdoins and Castleburys and Churchills and Wises and Fitchetts and Stewarts and Wards—and the rest of them, names there in Virginia when Charles I. was king. The big carriages were drawn up in a massive line and the horsemen and horsewomen stood about picturesquely in and out of the saddle, talking, watching, admiring the surprising military things which their sons and brothers and sweethearts were doing. And the lads went through their drill nobly, and the stalwart body of men and horse-flesh formed in fours, in twos, melted into long-drawn lines, wound into close concentric circles and unwound again, and charged and dismounted and leaped into the saddle, at Harry Hampton's shouts of command, with surprising accuracy; also to the unbounded pride of Francois, who, in the ranks, watched every evolution, every move of every rider, with anxious delight. They did wonders; the horses were on their best behavior and pushed into the places they had learned so eagerly that the riders needed hardly to guide them at all; the whole graceful, inspiring exhibition of strength and skill and youth and vigor went without a fault. Harry Hampton, flushed with deep pleasure at this first trial of strength of his life where he had been leader, was so happy that Francois almost forgot to gallop to the head of the line when his turn came, for joy of looking at him. Then the drill was over and there was to be rough riding and jumping. Hurdles were swiftly dragged out and placed in a manner of ring.

"This one is very close to the bank," said Lucy Hampton, standing by Bluebird and watching as the negroes placed the bars. "If a horse refused and turned sharp and was foolish, he might go over. And the bank is steep."

"Lucy, you are a grandmotherly person," Clifford Stewart—who was another girl—threw at her. "You would like them all to ride in wadded wool dressing-gowns, and to have a wall padded with cotton batting to guard them." And Lucy smiled and believed herself overcautious.

The excited horses came dancing up to the barriers and lifted and were over, with or without rapping, but not one, for the first round, refusing. Then the bars were raised six incheh; six inches in mid-air is a large space when one must jump it. Caperton Bayly went at it first; his mother watched breathless as he mlew forward, sitting erect, intense, his young eyes gleaming. Over went his great horse Traveler, and over the next and the next—all of them; but the white heels had struck the top bar twice—the beautiful, spirited performance was not perfect. Harry Hampton came next; all of the kindly multitude gazed eagerly, hoping that the boy to whom life had given less than the others might win this honor he wanted. The first bars without rapping; the second; and a suppressed sound of satisfaction, which might soon be a great roar of pleasure, hummed over the field. Black Hawk came rushing, snorting, pulling up to the third jump, the jump where Lucy stood. And as he came a little girl high in a carriage, a chariot as one said then, flourished her scarlet parasol in the air, and lost hold of it, and it flew like a huge red bird into the course, close to the hurdle. And Black Hawk, strung to the highest point of his thoroughbred nerves, saw, and a horror of the flaming living thing, as it seemed, caught him, and he swerved at the bar and bolted—bolted straight for the steep slope.

A gasp went up from the three hundred, four hundred people; the boy was dashing to death; no one stirred; every muscle was rigid—the spectators were paralyzed. Not all. Francois from his babyhood had known how to think quickly, and these boys were his pride and his care; he had thought of that possible danger which Lucy had foreseen; when the jumping began, mounted on his mare Aquarelle, he was posted near the head of the slope, not twenty yards from the hurdle, to be at hand in any contingency. When Harry's horse bolted, one touch put Aquarelle into motion. Like a line of brown light she dashed at right angles to the runaway—a line drawn to intercept the line of Black Hawk's flight. There was silence over the field—one second—two seconds—the lines shot to the angle—then it came—the shock they awaited.

Black Hawk, rushing, saw the other coming and swerved at the last moment—too late. The animals collided, not with full force, yet for a moment it looked like nothing but death for riders and mounts. Harry Hampton was thrown backward to the level field; Black Hawk galloped off, frantic and unhurt, across it; Aquarelle, one saw, lay on the very edge of the drop and was scrambling to her feet with liveliness enough to assure her safety; of Francois there was no sign. In half a minute the breathless still crowd was in an uproar, and a hundred men were jostling one another to reach the scene of the accident.

Private Pleasures

In Concord, N. H., they tell of an old chap who made his wife keep a cash account. Each week he would go over it, growing and grumbling. On one such occasion he delivered himself of the following:

"Look here, Sarah: mustard plasters, 50 cents: three teeth extracted, $2! There's $2.50 in one week spent for your own private pleasure. Do you think I am made of money?"

Lion and Unicorn.

The animosity which was supposed to exist between the lion and the unicorn, as referred to by Spenser in his "Faerie Queene," is allegorical of the deep rooted ill will which anciently existed between England and Scotland. Ever since 1603 the royal arms have been supported, as now, by the English lion and the Scottish unicorn in token of the fact that St. George and St. Andrew had at last shaken hands and forgotten their old difference.—Westminster Gazette.

Health and Beauty Helps

BY MRS. MAE MARTYN

Grace: Certainly that brittleness of hair and your dandruff are dangerous conditions and should be corrected quickly by by a proper shampoo. Get some canthrox from your druggist and dissolve a teaspoonful in a cup of hot water, then pour this mixture on the head slowly and rub well. This makes an abundance of rich, cleansing lather, and rinsing leaves the scalp and hair wonderfully sweet and clean. These shampoos are very soothing to tender, itchy scalps and so invigorate the hair roots that a growth of glossy, fluffy, even-colored hair results. Canthrox shampoos are invaluable to the finest growth of hair and prevent as well as overcome all scalp and hair difficulties.

Lotta M.: Here is a simple, inexpensive treatment for hairy growths: Mix a thick paste with some powdered delatone and water. Apply to hairs not wanted and in two or three minutes rub off and the skin will be smooth and hairless. Then wash the skin to remove the remaining delatone.

Gloria: I always use a crystos tonic for my eyes when they are weak, watery and inflamed, or use it as an eye wash when I am going to dinners or parties and wish to look especially nice. I buy an ounce of crystos from my druggist and put into one pint clear water, then place two or three drops in each eye a few times a day until they are strong again. This eye tonic is also very good for granulated lids and will give a sparkle and delightful expression to dull, expressionless eyes.

Dolly: Your itchy scalp can be relieved and cured, as well as the falling hair, by the use of a quinine tonic which at least a dozen of my personal friends are using and making at home from an ounce of quinzoin dissolved in a half pint of alcohol, to which should be added a half pint of water. They use this regularly by massaging into the roots of the hair and they claim the itching stops immediately, and the tonic improves the growth of the hair and helps nature make it beautiful and healthy.

Hortense: Indeed, you can easily cure that tired, depressed feeling which is accompanied with such a sallow condition of the face. They are caused by sluggish blood (very common in the fall and winter months which is not properly eliminating the poisons from the system. Try this blood purifier and tonic: Into one-half pint alcohol (whisky must not be used) pour one ounce kardene, then add one-half cupful sugar and hot water to make a full quart. Take one tablespoonful of this old-fashioned blood cleanser and tonic before each meal. This is splendid for that weak, worn feeling and restores the kidneys to normal action and the blood to a healthy condition. Its timely use will save much serious sickness.

Teacher: In your case the wrinkles and lines in your skin are probably caused by its extreme dryness. To remove them use this preparation which you can make for yourself, which will act rapidly and restore the softness and natural tone to the skin. Get an ounce of almozoin at the drug store and dissolve it in one-half pint cold water, adding two tablespoonfuls glycerine. Apply this before retiring and leave over night. This will remove wrinkles, prevent crow's feet and make your face soft and satiny. Since it has removed my crow's feet I use it to clear and whiten my skin.

Anna: No, don't make yourself miserable by unnecessary dieting or indulging in violent exercise to reduce fat. Make up and take this simple reducer and your weight will soon be just where you want it: Dissolve four ounces parnotis in one and one-half pints hot water; when it cools strain and take a tablespoonful before meals. This parnotis reducer acts gently, is quite harmless, and entirely satisfactory results are quickly attained.

Girlie: I have rejuvenated my complexion and again have the velvety rose-tint skin of my girlhood. I stopped using powder and now use this simple, inexpensive lotion: In one-half pint witch hazel or hot water dissolve four ounces spurmax, then add two teaspoonfuls glycerine. This lotion dries quickly after being applied and is invisible. Use it on the face, neck, arms and hands and it will impart to the skin that youthful purity and exquisite tint it is impossible to obtain any other way. It is excellent for chaps, cold sores and to protect against fall winds and dispels the oily, sallow, rough condition in a very short time.

TRACKMAN SAVES SCORES OF LIVES

Stops No. 55 Within Few Feet of Broken Rail Which Would Have Wrecked Train

Scores of lives were saved this morning when C., M. & St. P. passenger train No. 55, running at the rate of fifty-five miles an hour between Tomah and Oakdale, was flagged by a section hand within a few yards of a disconnected rail.

A section hand, employed between these two stations to walk the track looking for loose bolts, discovered the break while No. 55 was but a quarter of a mile away. It is probable that the train would have been derailed with the possibility of a great loss of life.

It is the opinion of the train crew that the break was caused by a contraction of the steel as the result of the extreme cold of last night.

It was found that the anglebars connecting the rails had become loose, and with the strain caused by the contraction had snapped their bolts.

There is a slight bend near the place where the break occured which kept the section hand from view until No. 55 was within a few train lengths of him. As the engine rounded the curve, the engine crew noticed the man in the middle of the track waving a small red flog. Air was applied and the steam was reversed, stopping the huge engine but fifteen or twenty yards from the signalling man.

When passengers heard the wheels screech and the train stop so suddenly, a number of them, with the train and engine crew went to the head of the train to investigate.

They found the section hand already busy with his wrench and bolts replacing the angle bars. He did not seem to realize that he was a hero.

No. 55 was not delayed more than three minutes. The crew of No. 55 arriving here at 10:45 made a report of the near mishap, but could not give the name of the man who saved the train. It is thought that railroad officials will recognize the man's service.

CANADIAN CATTLE THROUGH LA CROSSE

Number of Stock Trains on Railroads from North Increased Since Tariff Was Evoked

That the placing of Canadian cattle on the free list is already showing results is shown here by the increased number of stock trains passing through the city from the north over the Burlington and Milwaukee railroads.

During the past week, several car loads of stock have been sent east over these roads from Canada or nearby points on this side of the line, where they have been sent down on railroad spurs. A large majority of these are being shipped to the Union Stock yards at Chicago.

Railroad men here are of the opinion that the number and size of shipments of cattle will increase.

The duty was taken off cattle immediately upon the signing of the tariff bill by President Wilson, and at once cattle growers in Canada started making preparations for shipments for consumption in the United States.

The price of Canadian cattle is said to be considerably lower than that charged by stock raisers in this country, so that demand for the former variety should be great.

FACTS on Eczema

That's What Skin Sufferers Should Know-THE FACTS —for 15 Years D. D. D. Prescription Has Been the Standard—Now Read.

It is in this last decade of medical research that internal drugs have proven as worthless for skin disease as for toothache.

It is also in our modern rush of medical enlightenment that salves and ointments have been discarded. First, because they cannot penetrate the tissues correctly; second, because they clog the deep pores of the skin and imprison the disease germs.

To affect a cure of skin trouble the remedy must be in fluid form. This statement, now proven, was first made 15 years ago by a famous skin specialist and it was his tireless work that resulted in the discovery of D. D. D. Prescription, a simple, soothing, cooling wash.

Apply D. D. D. to the skin and see how the itch is gone—instantly—the moment the liquid is applied!

Then see anyone who has used D. D. D. according to directions and ask if the cure was not permanent.

Remember: D. D. D. Prescription has been recognized as the standard skin remedy for many years, while imitations in liquid form as well as salves and "blood" cures have come and gone.

Druggists generally carry D. D. D. and we recommend it strongly. If you have any kind of skin blemish, rash, or insect bite—no matter how slight—call at our store and ask us about D. D. D. Prescription.

Ask us also about D. D. D. Soap—a specific for tender skins.

The first full size bottle is sold with the guarantee that unless it is effective in your own case, your money will be refunded. You alone to judge.

HITS FALSE MODESTY

SPEAKERS AT PURITY CONGRESS SCATHINGLY DENOUNCE OPPOSITION TO SEX INSTRUCTION

MINNEAPOLIS, Minn., Nov. 11.—Eloquent appeals for the "throwing off of the yoke of false, criminal modesty which has retarded the work of bettering the morals of the world" were made today at the fourth day's sessions of the International Purity congress, which is holding its seventh annual meeting here. Speakers scathingly denounced the opposition which has developed against instruction in sex matters and hygiene, as "criminally negligent, inhumanely ignorant." It was pointed out that two classes "blind themselves to the social evil, and oppose any movement, through widest publicity and statement of facts however much they 'hurt' is meant to better conditions." The first class, it was declared, are those who "viciously and immorally fight any movement which would mean lessening of their sordidly secured financial returns." The second class, it was declared, comprise "prudes, supersensitive people who, in their supreme ignorace and innocence, refuse to believe there are scores in every city which should be treated as such."

Health Restored By Eckman's Alterative

Glandular trouble, very frequently diagnosed by physicians as "Tuberculosis in the Glands," has been found to yield to Eckman's Alterative when other treatments did not bring relief. Eckman's Alterative is a medicine which during the past fifteen years, has brought about many recoveries even in a number of supposed hopeless cases. Read this:

257 Laruson St., Phila., Pa.

"Gentlemen: In March, 1909, my doctor pronounced my case 'Tuberculosis in the Glands,' and a number of operations in a hospital failed to benefit me. In the meantime a friend of mine advised Eckman's Alterative. The wounds in my neck were still open and in a frightful condition when I started to take it. After using two bottles I found I was improving, having gained weight, could eat and was able to sleep. I continued using it until I was well, which was in November, 1910. On November 11, 1910, I started to work, and since that time I have not lost one day's work through sickness. I highly recommend Eckman's Alterative to anyone who is suffering from Gland trouble."

STUDIES HARD TO LEARN DAIRYING

Dr. Christianson's Niece from Norway Diligent at University; Will Run His Farms

With her head bent low over her work, her fingers deftly rolling the golden cubes of butter into their wrappers for the market, Miss Bertha Christianson of Christiania, Norway, who is studying dairying at Madison in order that she may take charge of her uncle's large creameries in La Crosse, presented what might be a futurist's conception of a dairymaid. Miss Christianson arrived in this country only a month ago when she went directly to the home of her uncle, Dr. A. Christianson of La Crosse. Dr. Christianson owns several dairy farms and will place his niece in sole charge of all his dairying interests there. It is the object of Miss Christianson to study dairying at the university in every phase that she may be able to supply her uncle's customers with a very high grade of butter.

Although she has been in this country but a month the progress she has made with the English language seems marvelous. Forced as she is to mingle with Americans, listen to English lectures, and take notes, Miss Christianson has found it a case of "do or die." Her instructors say that they have no trouble at all in explaining the work to her.

WILL ORGANIZE A GOOD ROADS BODY

More Than Seventy-five Members Pledged Already; to Perfect Organization Soon

A meeting for the organization of a local branch of the National Highway association will be held here the latter part of this week or the first of the following week, according to announcement made today by Secretary John L. Utermoehl of the local board of trade.

The preliminary work done by Organizer E. H. Billings, who has been here more than a week, has met with great success. He has already the signatures of more than 75 members to the proposed organization, including practically all of the officers and directors of the board of trade. That organization is backing him in his efforts to organize a local branch.

The meeting which will be held may possibly be in connection with the board of trade directors meeting to be held early next week. It will probably take place at the La Crosse club. Officers will be named with a board of directors.

HUNTER DROWNS WHEN BOAT TIPS

MILWAUKEE, Wis., Nov. 11.—Emil Jaroch, 926 Second avenue, drowned in Big Muskego lake on Sunday while duck hunting with Tony Corzmark, 988 Third avenue, Milwaukee.

They started out on the lake, each taking a small skiff. After being out three hours, they started back to the short. About 300 feet from the shore Jaroch's boat turned turtle. He managed to get on the bottom of the boat and clung to it for fifteen minutes, calling for help. His cries were heard on shore and a number of people attempted to rescue him, but on account of the roughness of the lake were unsuccessful.

AGAIN ATTACK THE STATE SYRUP LAW

MADISON, Wis., Nov. 11.—The National Corn Products company filed suit in the federal court here today to restrain Dairy and Food Commissioner J. Q. Emery from enforcing the 1913 law requiring syrup containers sold in Wisconsin to be correctly labeled as to contents. This is the second time the Wisconsin corn syrup law has been attacked in the courts. The aim of the law is to compel manufacturers to designate the amount of glucose used. The Corn Products company claims the new law is in contravention with the federal act.

READY SALE FOR TICKETS TO BALL

Explanation of Schedule of Admission Prices Is Offered to Clear Up Difficulty

Response to the suggestions to purchase tickets for the Charity ball contained in the sending out of tickets to a number of persons presumed to be planning to go has been excellent, members of the committee said today. Nor is this intended as a stereotyped statement. The returns of money for the tickets have been most gratifying, beter than in the past years.

A point has been made in connection with the tickets which it has become necessary to explain. The question is often asked as to the price of a single admission ticket, some confusion existing because of the rule which entitled the holder of a $3 ticket to bring in an extra lady for another dollar. The $3 ticket is good for a man and a lady, or for two ladies, and two ladies may also bring a third with them for an extra dollar; it is proper in the latter case for the three ladies to turn in the $4 jointly if they wish. Single admissions, however, are $1.50, whether for man or woman, the $1 price being only made when a third person accompanies the two who are entering on a $3 ticket. It would seem to be unnecessary to explain this point, but as there has been some question raised, the explanation is given to clear up any doubts that may exist.

All tickets entitle the holder to the full privileges of the ball including concert, dancing and supper.

The various committees, with Mrs. George Burton as general chairman, are working night and day, and many new features will be added this year. Sputh, assisted by Mr. Thurston Owens, Miss Viola Doerflinger, Mr. Alex Moll, Miss Louise Easton, Mr. and Mrs. Theodore Ubbelohde, Mr. and Mrs. Will Hickisch and Mr. and Mrs. Frank N. Funke. The committee on decorations, consisting of Mesdames W. F. Wolfe, William Hellfach, A. C. Wolfe, E. C. Bartl and the Misses Louise Easton and Viola Doerflinger, is expending much time and energy to make the ensemble beautiful and attractive. The ladies in charge wish it distinctly understood that the Charity ball is for all who wish to attend. The public is invited, and no one who has not received a ticket is barred from attending. THE PHILHARMONIC ORCHESTRA

The Philharmonic orchestra, which meets Sunday afternoons at the W. B. U. for practice, had a very good rehearsal this week. The committee, composed of officers and five members, met before the practice and planned more definitely for the organization to be put on a business basis.

Another invoice of music has been received and some new music to begin work on each meeting helps to make it more interesting. Also, people are applying for membership right along, and the parts are filling rapidly. Every week shows a marked improvement. In the ease in ensemble playing the director was quite pleased at the skilful reading of a Gounod overture given by the orchestra at its last meeting. It promises well for a season of great interest for the students of instrumental music who have joined this orchestra.

Makes Face Young—Tightens Love Ties

("Aurilla" in Woman's Sphere.)

A fretful expression, a wrinkled face and a faded complexion, do more to drive the male members from home than is commonly supposed. It was one of my greatest difficulties to appear smiling, fresh and elegant when my dear ones were with me. But I have overcome all that, I have changed my mental attitude and I now find it second nature to look cheerful. Due partly to this, partly to a remarkable treatment recommended by a friend, my appearance has so improved I look fifteen years younger than before.

A simple face lotion made by dissolving an ounce of powdered saxolite in a half-pint witch hazel, proved a wonderful wrinkle-chaser. I still use this occasionally. To renovate my complexion I purchased an ounce of ordinary mercolized wax at my druggist's and before using this up, a marvelous transformation had taken place. It was like removing an unsightly mask, revealing a new face, a youthful complexion of distinctive delicacy, clear, white and velvety. I merely applied the wax like cold cream before retiring, washing it off morning. Ten days' treatment sufficed.—Advertisement.

Important Deal Closed After Twenty-five Minutes Negotiations This Afternoon

NOT GOING INTO SHOE LINE

Official Says Company Has Merely Bought Fine Shoe Lot at Bargain Counter Figure

The Scott-Rose company today purchased the entire shoe stock of the Frye Shoe company. The deal, which is a large one, was consummated within twenty-five minutes after negotiations began. They will take the property over immediately. The Scott-Rose company will display the stock in their large basement, where its disposal to the public will take place under conditions to be made public in the near future.

It was specifically stated by an officer of the firm that the Scott-Rose company is not going to engage in the shoe business, and that their present transaction to dispose of this stock will begin and end their activities in this line.

Terms of the deal were not made public, but it is known that the stock was purchased at a price that will enable the new owners to open it up to the public at "the buyers' own prices."

Forgotten Musicians.

Few but those who have studied musical history know that the name John Bull was borne by one of the most famous musicians of the sixteenth century. He was as famous a harpischord player in his day as Liszt was a pianist, but as a composer he lacked the creative power of Liszt, the result being that Bull is practically unknown to the general public today, even in England.

CANNOT FIGURE EXACT NUMBER OF BOATS SUNK

(Continued from Page One)

morning and long distance telephones reports from Point Abino report the vessel missing.

The ship carries a crew of six or eight men under Captain Williams. The lightship is about 150 feet in length, thirty feet beam and is built of steel.

The toll of the storm which swept the Buffalo district for twenty-four hours ending today was heaviest along the water front where a number of boats were smashed on the rocks. Five members of the crew of the drill boat Explorer were rescued from death during the seventy mile blow by Captain Henry Cook of Detroit in the tug Smith.

Steamer in Danger

LORAIN, Ohio, Nov. 11.—The steamer G. J. Grammer, bound for the upper lakes, laden with coal, is aground off the entrance to Lorain harbor and unless released soon, is in danger of going to pieces. Her captain, John Burns of Buffalo, and telephone wires, it was believed early today that scores had perished in shipwrecks on Lakes Michigan, Superior and Huron. Persons aboard the unknown vessel which yesterday was reported on the rocks near Gull Rock lighthouse on Manitou Island, Lake Superior, pounding badly and in danger of breaking up, are believed to be doomed to death. Early today steamers which made futile attempts at rescue, report that the decks of the stranded vessel were awash and that members of the crew were lashed in the rigging. Several of them are believed to be dead from exposure to the fifty mile blizzard which has been raging for eighty hours.

A report from Sault Ste. Marie this morning said that the Tomlinson line steamer James E. Davidson had sunk off Groskap Point. Tugs have been sent to the scene. From other parts of the state come reports of further disasters on the lakes. It was believed this morning that it will be many days before the number of perished can be learned. Storm signals were displayed today all along the upper lakes.

Huronic Still Fast.

The passenger steamer Huronic, which yesterday went aground on Whitefish Point, Lake Superior, was still held early today. Ice coated vessels which arrived at the Soo reported that she was badly damaged but in no immediate danger of breaking up.

Reports from Alpena today said that there was slight chance that the Canadian steamer Arcadian, which went on a reef near Sulphur Island in Thunder Bay, could be saved.

Damage to towns on Lake Michigan will be much greater than originally estimated. Docks and boathouses were washed away by hundreds and scores of small boats were sung at their moorings.

Steamers Lost

Search was being made near Marquete today for some trace of the steamer L. C. Waldo believed to have been lost off Big Bay, 25 miles northwest of Marquette. The cabin and upper works of the steamer are reported to have been washed ashore near Big Bay.

Senator Shovels Snow

PITTSBURG, Pa., Nov. 11.—Lashed today by a fifty mile gale cold as the breath of Boreas, this city was the jumping off place for the tail end of the big storm, according to weather officials here. The snow stopped falling when it had piled up fifteen inches, but more snow late today was the forecast.

From many points within 200 miles came stories of death, suffering and loss as communications were re-established.

That Washington, Pa., thirty miles southwest of this cicty, felt the full fury of the storm was apparent. There a howling gale swept the snow into drifts fifteen and twenty feet high, blew down telephone and telegraph poles caused at least one death and untold suffering. Two trains [wit]h a total of 200 passengers were stalled there. Aboard one of them on the Washington and Waynesburg line was United States Senator Albert B. Cummings of Iowa. Returning from a visit to his old home at Waynesburg he was caught in a deep cut with 100 others. After the entire party, from the senator to two foreign laborers, had shoveled snow for two hours to keep warm, three engines got through and pulled them to this city.

The other train with 200 passengers was still stalled early today.

Send U. S. Cutter

MILWAUKEE, Nov. 11.—Speeding northward under forced draft, the United States revenue cuter Tuscarora today is rushing to the assistance of a vessel, driven on Gull Rock by the storm which for three days has raged over the length and breadth of the great lakes. Wireless advices received at daybreak today instructed the cutter to weigh anchor and put out for the north. The name of the stranded vessel is unknown but wireless advices said at least a score of persons were board and in danger.

Boats Reappear

DULUTH, Minn., Nov. 11.—Several boats reported lost this morning have been accounted for this afternoon. The steamer James E. Davidson of the Tomlinson line, passed the Soo all safe. The steamer Frank C. Ball is in Bufalo unloading grain. The Sierra and the Simon Langell are in the local harbor.

STORE IS DESTROYED

RUSHFORD'S LARGEST ESTABLISHMENT CONSUMED BY FLAMES WITH LOSS OF $6,000 EARLY THIS MORNING

RUSHFORD, Minn., Nov. 11.—(Special.)—Fire, believed to have been started by spontaneous combustion in the workroom, early today destroyed the largest store in Rushford, when the A. Halvorson furniture store was burned to the ground. The building is a total loss without insurance, estimated at $3,000. The stock was damaged to the extent of $4,500, with $1,500 insurance.

The fire was noticed by Dr. W. L. Nerud, from his office in the Northwestern hotel a little before midnight. He called out the fire department, which apparently had the flames subdued until an explosion of oil in the workroom started the blaze afresh and the firemen were unable to check it.

The stock on the first floor was saved, and moved by Mr. Halvorson into the John Peterson building on Jessie street. He contemplates rebuilding on the site of the burned building.

It was announced yesterday that the women might be taken into police court and the city be benefited by getting the fines.

HUNT AUTOIST WHO KILLED DAKOTAN

PARK RIVER, N. D., Nov. 11.—The identity of the occupants of an automobile that killed Clarence Quill of Park River, who was found dying on a highway between this city and Lankin, was not established by the coroner's jury which has just returned a verdict.

The mysterious car was driven at a high rate of speed over the road on which Quill was found a half hour later. Quill, it appears, had fallen from his own carriage to the road, where he was run over by the automobile.

His arm was crushed and mangled nearly to the elbow. W. A. Tripp, a farmer living near the Pertsch farm, rushed Mr. Keppel to the Lutheran hospital, where an amputation was performed.

It was said today that Mr. Keppel was recovering from the shock.

INTERVENTION STOP MEXICAN SCRAP

OMAHA, Neb., Nov. 11.—The propriety of intervention in Mexico came up for discussion yesterday afternoon in a local Mexican rooming house house and as a result nine Mexicans are in jail and the other seven in the hospital suffering from more or less serious knife wounds.

A squad of bluecoats put a quietus on things. Jesus Augirre and Pedro Laupus are the most seriously injured, the former having his throat badly cut.

Fernando Espianoza, leader of the interventionists, had his belief greatly strengthened after the free-for-all battle. The question of intervention is to be further discussed today in police court.

ELECTION SUPPLY COMPANY FORMED

Local Men Organize Concern with Main Business of Popularizing the Dunn Ballot

The National Elections company filed articles of incorporation and elected officers today.

The incorporators of the new company are Moncena Dunn, William Doerflinger and Anton Linker. The capital stock is $50,000.00. The first meeting of stockholders was held yesterday afternoon and the organization perfected by the election of a board of directors. Mr. E. O. Edwards, Mr. Anton Linker and Mr. Moncena Dunn were elected to serve as the first board of directors.

Mr. Dunn was chosen president; William Doerflinger, vice president; E. O. Edwards, secretary and Anton Linker, treasurer.

The company is authorized to "deal in election supplies," but its main business will be to secure the adoption of the Dunn coupon ballot in other counties of this state, and in other states.

The company announces that it will not bid on the printing of ballots as a source of revenue, but that wherever ballots are to be published it will stand prepared to bid in cases where there seems likely to be an attempt to exploit the taxpayers by charging an extortionate price for the printing.

HUERTA INFORMS WILSON HE WILL NOT QUIT CHAIR

(Continued from Page One)

can expect nothing at the hands of the Wilson administration and that the New Mexican congress will not be recognized on the ground that it was not legally elected.

Diplomatic pressure on Huerta, it is said here, is becoming so strong that the administration expects "something to crack" soon.

Although on the surface no news of favorable developments in the Mexican matter has been available here, it is a certainty that since last Saturday the possibility of a peaceful solution of the Huerta tangle has vestly increased.

Asquith Backs U. S.

LONDON, Nov. 11.—Appreciation by the United States of Premier Asquith's Guild Hall speech yesterday, which made ridiculous the thousand rumors of British antagonism to America over the Mexican situation, is understood here today to have been conveyed to the British foreign office by Ambassador Walter H. Page.

The Asquith speech was interpreted as indication that Europe will in no wise interfere with President Wilson's Mexican plans.

Asquith explained fully how England came to recognize the Huerta de facto government and declared that therein lay nothing antagonistic to the United States. He said: "There have been rumors that, after the United States had adopted a line of their own, in regard to Mexico, we took a line calculated deliberately to thwart America. There is not a vestige of foundation for such a rumor.

"Our interest in Mexico calls for vigilant care. Mexico is still in the throes of civil war, but there never was and never will be any question of political intervention by Great Britain in the domestic concerns of Mexico, or in the Central or South American states."

Diplomatic circles heard today that British recognition of Huerta's de facto government in Mexico will be withdrawn unless the provisional president at once moves to meet the demands of the United States.

Construed as a hint to Huerta, was an editorial paragraph in today's Westminster Gazette, that "the idea that any valid election under existing conditions in Mexico could be held is a diplomatic fiction."

Watch for Valuable Paper.

Not a scrap of paper is permitted to be carried out in the United States treasury department until it has passed the censorship of the official examiners of the waste baskets. For years they have been doing this work, and have saved the government the amounts of their salaries many times over. Some time back one of them found in a waste-basket a $10,000 United States coupon bond.

Getting Shallow.

CINCINNATI COOK ON LONG TRAMP

Averages Forty Miles per Day from Buckeye City to Bismarck, North Dakota

Averaging forty miles a day, sleeping out of doors most of the time and cooking his meals in utensils carried on his back in a knapsack, Joseph Hoffman, a cook in one of the largest hotels in Cincinnati, O., passed through the city this afternoon on the return journey of a twenty-six hundred mile hike.

The reason Hoffman has for the long jaunt is two-fold. Some months ago his companions in the hotel were conversing on the merits of long walks.

Hoffman ventured the opinion that he could walk as well as the majority of the would-be walkers, saying that a nice litle hike would be from the Ohio city to Bismark, N. D., and return.

Hoffman, according to himself, was lean and flabby. "You couldn't walk around the block," said a friend, "but if you could make such a journey and average 25 miles a day, we would stake you to $400, and if you average 30 miles or better a day, we'll double the bet, but don't brag about your prowess as a walker unless you do.

Hoffman Took Them Up

The first few days of the walk were long ones with the inexperienced walker, but he is as hard as an athlete and as brown as an Indian, as he is half way home on the return journey.

The Quickest, Simplest Cough Remedy

Easily and Cheaply Made at Home. Saves You $2.

This plan makes a pint of cough syrup—enough to last a family a long time. You couldn't buy as much or as good cough syrup for $2.50.

Simple as it is, it gives almost instant relief and usually conquers an ordinary cough in 24 hours. This is partly due to the fact that it is slightly laxative, stimulates the appetite and has an excellent tonic effect. It is pleasant to take—children like it. An excellent remedy, too, for whooping cough, spasmodic croup and bronchial asthma.

Mix one pint of granulated sugar with ½ pint of warm water, and stir for 2 minutes. Put 2½ ounces of Pinex (fifty cents' worth) in a pint bottle, and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

Pine is one of the oldest and best known remedial agents for the throat membranes. Pinex is a most valuable concentrated compound of Norway white pine extract, and is rich in guaiacol and other natural healing elements. Other preparations will not work in this combination.

The prompt results from this mixture have endeared it to thousands of housewives in the United States and Canada, which explains why the plan has been imitated often, but never successfully.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

COMRADES ESCORT BODY TO GRAVE

Members of G. A. R. Fire Last Salute Over Resting Place of Walter D. Bell

The funeral services of Walter D. Bell were conducted with impressive ceremonies Friday afternoon at his home, Bellmont Farm, in Mormon Coulee. Notwithstanding the unfavorable weather, a very large number of relatives and friends were in attendance, many coming from long distances. The floral tributes were many and beautiful. Rev. Henry Andreas of Mormon Coulee, conducted the obsequies. The pall bearers were Messrs. Emanual Markle, J. M. Holley, Sr., J. H. Lightbody, Edward Cronon, Henry Vincent and Geo. W. Scott, all members of the G. A. R.

The funeral left the home about 2:30 and the long procession took its way to Oak Grove cemetery, where the G. A. R. ritual service was held at the grave. The firing squad of the Wilson Colwell Post No. 38, of which Mr. Bell was a member, fired a volley in honor of their comrade.

Walter D. Bell was born in Mercer county, Pennsylvania, Nov. 1, 1843, a son of John and Elizabeth Walters Bell, and was one of a family of nine children, only three of whom survive him, two sisters, Mrs. Rebecca Kimball of Gage, Mont.; and Mrs. Selma Klein of Grandora, Can., and a brother, John Bell of Fergus Falls, Minn.

When thirteen years of age he, with his parents, came west and lived in the city of La Crosse four years and then located on a farm in the town of Shelby. He remained there until his enlistment in December, 1863. He served as a member of Co. F, 25th Wisconsin volunteer infantry, commanded by Col. Rusk, afterward governor of Wisconsin, in the Vicksburg, Atlanta and Savannah campaigns. He was mustered out at Louisville, Ky., in July, 1865 at the close of the war, having served one year and seven months as a defender of the union.

He returned to La Crosse county and again took up the life of a farmer. In 1875 he married Miss Elizabeth Zopfi, a daughter of the late John Zopfi of La Crosse.

In Oct. 1886, he bought his present farm in Mormon Coulee, which through earnest and persistent effort he made one of the most productive in the county. He was one of the first to introduce the raising of fruit and berries through this section, his home being widely known as the Bell Berry farm.

Mr. and Mrs. Bell had ten children born to them, all of whom are living. The sons, Leroy, Walter E., Sherman and Russell, are all of La Crosse. The daughters are: Mrs. Arthur Lewis and Mrs. Joseph Kolcinski of La Crosse; Mrs. William Borer of Milwaukee; Mrs. Raymond Maxson of South Bend, Ind.; Mrs. Felix Kolcinski of Minneapolis, and Miss Laura Bell of Rochester, Minn.

Mr. Bell's death occurred at his home Tuesday morning, Nov. 4th. He arose early and was preparing to start a fire in the kitchen stove. A member of the family hearing a strange sound in that part of the house hurried down stairs and reached his side just a few moments before he expired, a stroke of paralysis causing his death.

Mr. Bell was a man of sterling character, highly esteemed and beloved by all who knew him. Pure of heart, he was ever kind, loving, considerate of the welfare of those about him, and made an examplary husband, father and neighbor, and as such he will be cherished in the minds of those he leaves to mourn his departure. The family in their bereavement have the sympathy of the entire community.

There is no death! The stars go down
To rise upon some fairer shore;
And bright in Heaven's jewelled crown
They shine for evermore.

There is no death! An angel form
Walks o'er the earth with silent tread;
He bears our best loved things away
And then we call them dead.

URGES U. S. TO HEAD SISTER REPUBLICS

MADISON, Wis., Nov. 11.—John Barrett, director of the Pan-American union at Washington, protested against the Latin-American countries of this hemisphere becoming "wall flowers" when American influence is all that is needed to make them follow America's leadership rather than Europe's. Mr. Barrett, who was formerly United States minister to Siam and to Latin-American countries, addressed the student body of the University of Wisconsin yesterday afternoon in the first all-university convocation of the year.

Mr. Barrett's talk was a message to university men and women to be ready for the Panama canal and for our Pan-American responsibilities following its opening. The greatest single relationship of the United States, he said, is with the countries of South America, which he said are willing to trust and follow this nation's leadership if it is preferred in the right spirit. For this leadership he looked for support in a large measure to the young men and women in the middle west. It is up to the universities, he said, to direct the great tide of popular sentiment in this country for Pan-American co-operation.

CURRENCY FIGHT BREAKS IN SENATE

Long Expected Storm Comes when Senator Hitchcock Denounces Wilson Influence

SAYS IT'S NOT PARTY QUESTION

Declares the Money Problem Is Not a True Political Issue

WASHINGTON, Nov. 11. — The long expected storm on currensy broke in the senate this afternoon when Senator Hitchcock, democratic "insurgent" on the banking committee, spoke his mind on President Wilson's efforts to force a report on the Glass-Owen bill, and Senator Reed of Missouri renounced his own insurgency. Hitchcock insisted that the committee would have a report ready at the stipulated time if it had not been for an "outside influence" which manifested itself on Wednesday and "undid" all the committee had accomplished.

"We were told that President Wilson would not approve our course and were told to retrace our steps," he said.

"I understand the pressure that such a measure brought, and I have no criticism to make of those who yielded. Were the issue political, I too, would yield to a certain degree. But it is not political.. It may be said that it is presidential influence that produced the deadlock."

First Real Mineral Waters.

The manufacture of mineral waters "upon correct chemical principles" was undertaken in America as early as 1806. This was merely "charged water," but it was a great novelty in the days when lack of traveling facilities made the mineral springs remote for many. In 1809 the first establishment was started in New York city.

Checking Profanity.

In an Edinburgh hotel the bar counter contains a slot, into which each visitor who is heard to swear must drop a penny, and a notice to that effect is displayed. These pennies are at intervals collected and sent to aid the funds of one of the local institutions.

Not Always a Two-Step.

One should play the music of different moods—the serious, the tender, the gay, the sorrowful, the tragic. Music is the artistic expression of life, and life is not always a two-step.

POEHLING'S

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Lustre and Abundance

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred fold.

Don't stay gray! Look young! Either prepare the tonic at home or get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

SPOTLIGHTS

STOP THIEF

"Stop Thief" has all the crooks stopped. There will be a reform in the "crook" kingdom when they all get to see this new farce which Cohan & Harris will present at the La Crosse theater Sunday, Nov. 16, matinee and night. The plot of "Stop Thief" is a very original one. An absent minded old man who is afflicted with kleptomania, and a bridegroom who is also afflicted with the same desire to take things which don't belong to him, and a real thief who endeavors to get away with everything valuable furnishes the theme. The stealing and losing valuables get so contagious that when you reac in your pocket for your gloves you wouldn't be a bit surprised if you found a diamond bracelet or a jeweled ear trumpet. The family gets so nervous that at times it looks as if everybody on the stage has St. Vitus dance. The man who said all comedy primarily arose from watching the other fellow's troubles had the key note. The same company which appeared at the Gaiety theater all last season will be seen in their respective parts when the play is presented here.

SINGER'S PHOTO

A souvenir "photo" of Mr. Willard Foster will be given free to everybody attending the La Crosse theater on Thursday afternoon, "Tempest and Sunshine" is being presented to crowded houses. The same play will be given tonight and Wednesday evening.

Chicago Grain Review

CHICAGO, Nov. 11.—Wheat was firm at the opening today and after starting ¼c higher gained ½ to ⅝c more in the forenoon, principally on reports from Argentina, contained in cable dispatches saying that the conditions are most unfavorable for the new crop.

Corn traders gave the government crop report issued late yesterday a bullish interpretation and prices were down ¼ to ⅜c today.

Oats had an easy tone chiefly because of the weakness in corn but any decided decline brought instant buying that held prices at about ¼c lower each month than at yesterday's close.

Provisions were fairly steady with a steady hog market.

The afternoon grain trading was practically featureless, the market closing at about noon prices.

Provisions eased off a trifle toward the close.

RITCHIE KEEPS HIS LIGHTWEIGHT TITLE

Champion Shows Self Master of Leach Cross in Ten Round Go at at Gotham

NEW YORK, Nov. 11.—Any doubts that may have existed in the minds of New York fight fans that Willie Ritchie, lightweight champion, is worthy to rank with the best in the Queensbury game are set at rest today as a result of the Californian's ten round battle last night with Leach Cross. Ritchie won all the way. He was never in danger. Cross was outclassed from the bell.

In the first round Ritchie started slow and the honors rested with the east side fighter. In the second Ritchie pulled even or better. In the third, the champion's famous right cross went over twice and twice Cross hit the floor. He was saved from a knockout by the timely bell. From then till the end of the mill both boys were at it hammer and tongs. Ritchie's left jabbed, jabbed, jabbed into Cross' face and though the New Yorker landed many a swing their force was gone as that left was pushed into Cross' bleeding visage.

Early in the fight, Ritchie faced a serious hurt that would have meant quit to many a fighter. Those who saw the mill did not realize it but when Ritchie rolled over Cross' bent back and landed with his own back on the floor, he was almost out. After the fight a black bruise as big as two hands showed at the base of his spine and only grim determination carried him through the torrid battle.

Ritchie was badly handicapped by the New York boxing commission's rules. Cross, when he was not lashing out with long swings, went into a crab crouch which Ritchie could not penetrate. Had the fight been on the Pacific coast a couple of kidney swings would have made Cross stand up.

YALE MAY SCRAP ENGLISH STROKE

NEW HAVEN, Conn., Nov. 11.—The greatest interest was aroused here today by a report that James A. Ten Eyck, new coach of the Syracuse university crew, will be engaged to coach Yale next year. Captain Denegree may make the formal announcement this week after the rowing committee holds a meeting in New York, it was stated.

There has been a great demand for the abolishment of the English system of rowing and the defeat of the Yale eight by Princeton is said to have convinced the rowing committee that the English stroke is a failure.

BOB MOHA DRAWS FIRST SUSPENSION

MILWAUKEE, Wis., Nov. 11.—Wild Bob Moha, Milwaukee cave man, is the first boxer to come under the ban of the Wisconsin Boxing commission.

The commission yesterday announced that it has suspended Moha until January 1. He cannot engage in a bout in this state, and as there is a working agreement between the commissions of New York and Montana, the ban will extend to those states also.

The action of the commission resulted from the fact that Moha signed a contract to box before one Milwaukee club while his manager had previously signed with another organization.

GRIDIRON GOSSIP

CAMBRIDGE, Mass., Nov. 11.—Harvard coaches today began to prepare the Crimson squad for the Yale game less than two weeks off. The coaches decided he needed work to get into shape after his week lay off in the infirmary.

Coaches made no definite announcement today, but Johnny Pendleton returned to his place at right tackle after an enforced idleness of three weeks on account of injuries, and Hugh Harbison was again put in at right guard.

PHILADELPHIA, Pa., Nov. 11.—Pennsylvania started today to prepare for the game with Michigan. Special attention was given the back field which was weak Saturday on defense, especially when Dartmouth tried forward passes.

M'GREGOR, Ia., Nov. 11.—The local order of Masons tendered a banquet in the Masonic hall to John Van Staden in honor of his eighty-fifth birthday. Last week he sold the farm and returned to McGregor to make his home with his lifelong friend, Michael Klein. Mr. Van Staden has endeared himself to the community by his many philanthropies. Much of his fortune has been spent in benefactions to others, particularly to young men who have needed a helping hand in getting a start in the world.
